

Where can young people find sexual health services?

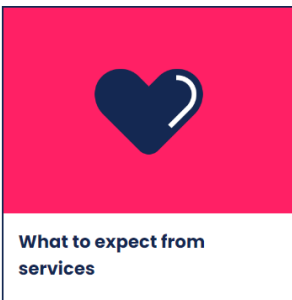

In partnership with

What is a sexual health service?

A safe place to talk about relationships and sexual health.

Get access to **free condoms, testing, contraception, and advice** about your sexual health worries.

You can talk to a trusted adult.
A nurse, doctor or youth worker.

Aged 13+?

Get free, confidential access to

Condoms

Pregnancy testing

Contraception (pill, implant, coil)

STI testing

All identities welcome

Services are confidential

This means the **information a person shares is kept private.**

If the service thinks you are **being harmed or in danger, they may share** some information to get you support.

A worker should let you know if they need to share and who they will talk to.
